

# 900 Line

**The telephone line with an increased charge rate, from which the provider receives a commission.**

The **900 LINE** allows operating the following services: information services, entertainment and advertising services, adult entertainment services.

The caller pays the defined price, ranging from CZK 4 to 95 per minute, including VAT, from which the provider will receive a share from the billed operation. The service uses numbers from the 900, 906, 908 and 909 ranges. **Line 900** is routed to a telephone number or multiple numbers, as designated by the customer. The target telephone number can be in the network of any operator in the Czech Republic or abroad.

## **WHO IS THIS SERVICE DESIGNED FOR?**

This service is designed for all companies and businesspeople who want to provide pay-per-call service.

## **THE SERVICE INCLUDES**

- assigning a number based on customer's choice – directly from the Dial Telecom range, by request from ČTÚ (Czech Telecommunication Office) or by porting from the current operator
- call routing to a customer designated number (or numbers)

## **BENEFITS OF THE SERVICE**

- customers can choose their numbers
- customers can choose the end price for the service, i.e. also the amount of the commission
- option of routing calls to any network
- fast service activation
- electronic overview of the calls
- possibility of setting the allowed (whitelist) and banned (blacklist) numbers from where the service can be accessed
- efficient and economical marketing tool
- individual consulting

## **TECHNICAL SPECIFICATIONS**

The 900 LINE service is activated within the Dial Telecom network. All incoming calls to the selected number are routed to your designated telephone number (or numbers).
